This certificate is issued within the scope of the General Conditions of Bureau Veritas Marine & Offshore available on the internet site www.veristar.com. Any Person not a party to the contract pursuant to which this document is delivered may not assert a claim against Bureau Veritas Marine & Offshore for any liability arising out of errors or omissions which may be contained in said document, or for errors of judgement, fault or negligence committed by personnel of the Society or of its Agents in establishment or issuance of this document, and in connection with any activities for which it may provide.

THE SCHEDULE OF APPROVAL

1. PRODUCT DESCRIPTION :

The Everllence CEON portal is the central place for storing and handling data of Everllence Engine Marine Program.

The aim for **Everllence CEON** is to:

- Create a centralized place for engine data, for current and future analysis and development
- Monitor, control and maintain the health of the engine, so it always runs best way possible
- Provide deeper engine condition/performance insight, by sharing the data with our experts, which will use advanced algorithms to extract hidden information in the data created.
- Provide Remote Operation Center with graphs, overviews, events etc., so they can proactively look at engines, which might have issues and resolve it quicker with the crew
- Enable customers to log onto the portal and track the health condition of the engine,including deep diving into measurement values.

The software has to be installed in a compatible hardware architecture as per manufacturer recommendations.

This certificate covers the software functionalities related to additional notation **SMART MH3**

Software version : **2.57.1**

2. DOCUMENTS AND DRAWINGS :
- Compliance Verification Matrix requirements v1.1 dated 18.11.2025
